A PHYSICIAN'S OPINION. "I have been practicing medicine for twenty years and have never been able to hit up a vegetable compound that would, like Summons Livor Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weak-ening) the digestive and assimilative powers of the system. Fifty Years Ago. [Written for the Gazette]

How few there are who can refer to a noted event in their lives that occurred fifty years ago? On the 9th day of May, 1840, I then in my 25th year-strong and buoyant-starting out from the city of Natchez, via New Orleans, travelled what was called the southern route-Mobile, Montgomery, Macon, Augusta and Charieston, Wilmington, Richmond, Alexandria and Washington; thence through Baltimore, Philadelphia on to New York, and sailed out of that port on board of the Great Western steam-ship, Capt. Hoskins commanding, bound for Brietol channel, England, to the port and city of that name—the suburban town of Clif-ton intervening, where the custom house was situated and where I first set foot on British soil, and first paid tax on my cigars, &c., which port was made by a successful voyage un 14 days and 9 hours from New York, the fastest then on record. The Great Western was the ploneer in regular ocean steam navigation, and this was about her second, or at most, third trip. What changes have taken place in steam navigation and in rail-roading, which were then in their infancy, compared with what they are now! Telegraphy was not known even, and the arts of grim-visaged war, with his wrinkled front, has been remoddled, but not modified nor bettered; man's inhumanity to man con tinues about the same, and many lands have been drenched in blood, and the fair face of the earth desolated by shocking cruelties practiced by man she victor, upon man the

vanquished. Earthquakes have occurred and destroyed many human victims, cyclones and storms at see and on land have taken place in di vers places causing great loss of life and destruction of property. Revolutions have blezed forth giving rise to new forms of government, or fastening on a struggling peo-ple the oppression of the old. All these have taken place within the last filty years, while thousands of other minor events affecting the interest of human kind for good or evil have happened. Notwithstanding the multiplied evil, the civilized world thinks it has advanced and improved and has good reason for gratuistion upon is present condition, with high hopes for the

future. What I have seen and experienced within the period named of prosperity or adversity, of sickness and health, of pain and pleasure, of despair and hope, of sorrow and joy, concerns myself and not the reader—it would take votumes to unfold. The events of life, I may say, have been so evenly balanced, or counter-balanced, as to raise the question of THOMPSON'S PURE RIE WHIstory and Country Prothese fifty years is comprised the greatest mechanical period of the world's blatcry, of scientific developement and general diffusion of knowledge smoog men, yet all these have not altered man's nature in the slightest degree, nor materially bettered his con-cition. Going back of this period, it is my firm belief there was then far more genera contentment and substantial happiness among all classes and ages than now, a

fact, in my opinion, beyond all controversy

Eristol is not a "Paper" city; it has a population of about 12,000, live, energetic people, is rapidly growing and is destined to be one of the largest manufacturing cities of the South. It is within 3 hours of inexhaustable coking and domestic ceals, the richest iron ore in the U.S., and immense bodies of Virgin timber, all of which reach Bristol via the S. A. & O. and Elizabethton roads. Its advantages of transportation and nearness to markets, its elevation, (nearly 1700 ft.) delight-ful climate, and its SOLID BASIS IN MINERAL WEALTH and timber, present inducements for investments, rarely met with. During the past year, over \$1,000,000 have been invested.
